FASCINATING ELECTRONICS FOR A COOL WORLD

Apply now for a **free Summer School** in Italy and benefit from this unique opportunity. Learn how you can contribute to make Europe a better place!

This event is supported by key European universities and research institutes.

FREE SUMMER SCHOOL

APPLY BY 25 MAY 17:00 CEST

PROGRAMME

Via lectures, demonstrations and interactive activities, we will introduce some of the possibilities offered by current Electronic Components & Systems and foreseen future applications, showing the many facets of the fascinating world of ECS.

ELIGIBLE STUDENTS

Are you a student from the field of Science, Technology, Engineering & Mathematics in the EU, have you been enrolled for at least two years of under-graduate studies and do you have at least one more year to go? Then this is a great opportunity for you!

APPLICATION

Apply for a seat in the Summer School on <https://ecscollaborationtool.eu/summer-school-2023.html> **by May 25th, 17:00 CEST**. Selection results will be communicated on **June 15th**. Participation will be entirely free for selected students.

LOCATION

University
Residential Centre
Bertinoro, near Bologna
Italy
