

.....

# Join us at Jane Street's upcoming Estimathon!

.....

Do you know how many computers were connected to the Internet on 1 January, 1989? Or how many YouTube videos have more than 1 billion views? What about the bandwidth beneath the Atlantic Ocean?

If you want to solve problems like these, join us at our upcoming Estimathon — a team-based contest that combines trivia, game theory and mathematical thinking. Participants will be placed in teams of 4 to 6 that will be tasked with solving 13 estimation problems in just 30 minutes.

**Deadline to register: 08/05/23**

After the Estimathon concludes, join us for a Q&A session with Jane Street traders and recruiters to learn more about our firm's work and opportunities.

**When:** **Wednesday 10th May,  
6pm - 7:30pm CEST**

**Where:** **Virtual via Zoom, the meeting link  
will be shared closer to the date**

**Register here**

*Jane Street is a global trading firm with offices in New York, London, Hong Kong and Amsterdam.  
Our approach is rooted in technology and rigorous quantitative analysis,  
but our success is driven by our people.*
