

INFORMATION FOR PROSPECTIVE PhD STUDENTS

PhD Fellowships in Republic of Slovenia are awarded by the Science Agency ARRS

<https://www.arrs.gov.si/en/>

and are typically advertised in May or June for the given year by the institution of the adviser.
In my case, this either means University of Ljubljana:

<https://www.uni-lj.si/eng/>

or the research institute IMFM:

http://www.imfm.si/view?set_language=en

It depends on the year because I am obliged to alternate the PhD positions awarded to my research program between them.

The PhD program at the University of Ljubljana starts on October 1 and lasts for 4 years. Fellowship includes salary, tuition and small amount of funds for expenses.
